

To Whom It May Concern

I am writing the FCC to let you know I am apposed to the anti-First Amendment proposal of the NAB regarding sattelilite radio. I have been an on-air disc jockey and am now an attorney and fully support Satellite Radio and their rights to

broadcast local weather, traffic and any other information including music, sports and political discussion radio shows.

I personally benefit from listening to XM Satellite Radio and its traffic and weather channels. The variety and other satellite radio provides unique programming and quality not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and I support XM Radio's ability to provide the kind of programming noted above without interference from NAB.
